

## Lady Liberty Felt Patch

Created by Erich Campbell for Embrilliance

How to stitch out and cut the felt patch design.

### Materials

- White polyester felt
- Medium cut-away stabilizer
- 40wt embroidery thread in Navy Blue, Flag Red, and Black

### Instructions

1. Open the LadyLibertyPatch.be file in your Embrilliance Essentials Software
2. Verify the design will fit in your chosen hoop. This design was created for a square, 4"x4" hoop.
3. Save the stitch file for your machine format. See your machine's instructions for information about transferring your designs to your machine.
4. Hoop 1 layer of medium cutaway with one layer of white polyester felt.
5. Stitch Design. You will notice that the last color change is a simple box of long, straight stitches outside of our design. This will be the 'cut line' for our raw-edged patch.
6. Unhoop material

**7.** Cut away excess felt. cut carefully just inside the line of stitching, leaving the stitched line on the excess material.

**8.** Carefully trim away the stabilizer between the stitched border and the raw edge. This insures that the only visible edge of the patch is the raw felt.

**9.** (optional) Stitch the patch to a garment of your choice by hand or machine. If you'd like to accentuate the raw edge, keep your attachment stitches close to the satin-stitched design edge to allow the felt edges to lift from your finished garment.

**10. Enjoy your Lady Liberty patch and make more for all your friends!**
